

# White Collar Crime

Monday 14 December 2015, 17.00

Introducing the

**Routledge Handbook on White Collar and Corporate Crime in Europe**

**Judith van Erp and Wim Huisman**

Utrecht University / VU University Amsterdam

**Bookpresentation and Panel discussion**

The study of white-collar crime remains a central concern for criminologists around the world, and research concentrates on its nature, prevalence, causes and responses. However, most books on white-collar crime tend to focus on Anglo-American examples, which is surprising given the amount of rich data and research taking place in mainland Europe. The Routledge handbook on white-collar and corporate crime in Europe (2015), seeks to reset the balance, and for the first time, presents an overview of state of the art research on white-collar crime in Europe.

In this session, the editors will present the handbook and give an overview of the most prominent European topics and typical European features of white-collar crime. They will particularly focus on recent landmark cases of white-collar crime in the Netherlands, such as the real estate fraud and the Trafigura environmental waste scandal. These landmark cases will be used to discuss whether lessons can be learned with wider implications for prevention and enforcement of white collar crime in a European context.

## **Program**

17.00-18.00

*Introduction:* Wim Huisman, VU University Amsterdam
